

PLAN B PROCUREMENT

THE BETTER PLAN FOR YOUR PROJECT'S SUCCESS

EFFICIENT PROCUREMENT AND CONSTRUCTION MANAGEMENT SERVICES

If you're in the business of building petrochemical plants or delivering similar capital-intensive construction or high-investment projects, you're probably all too familiar with the pain points. Whether it's trustworthy contract execution and fulfillment, transparent receivables management, the avoidance of legal and settlement costs, or even training up and retaining the people you need for the duration of the project while keeping HR costs in check - the breadth of potential problems is extensive.

But your next large-scale project can be different: Instead of conventional project management, you can choose Plan B - B as in better.

We're seasoned procurement and construction managers specializing in petrochemical plants and other projects similar in scope and scale. Having worked closely with engineering companies, plant constructors and plant operators since the year 2000, we've a wealth of experience in getting the job done.

ENGINEERING BENEFITS

COMPETENCE & RESOURCES

At Plan B, we've the knowledge, skills and resources to handle even the toughest plant construction challenges and situations smoothly and efficiently. In areas like project-related procurement, contract and claims management, and claims avoidance, Plan B has frequently been called in to help out in emergencies - and with a consistently strong success record.

We don't just meet the highest technical and business expectations, we also work strictly to international ESG standards.

EST PRACTISE

SUPPORTING / EMBRACING / ENACTING

Guided by our code of conduct, we fully embrace, support and follow international environmental, social and corporate governance (ESG) standards.

These are based on the United Nations Guiding Principles on Business and Human Rights, the International Labour Organization, the Declaration of Fundamental Principles and Rights at Work, and the Responsible Care Partnership.
